2008-2009 Season

## Definition of Private Trips vs Scheduled Sierra Club Trips

Private trips are non-Sierra Club activities which are not sponsored or administered by the SMS or the Sierra Club.

"Private" does not mean that they are "exclusive" or "closed to the public" . In the contrary, friends and newcomers are equally welcome to join, just like on "official" Sierra Club trips.

For "private" trips the Sierra Club has no information about the planning of these activities, makes no warranties about the quality, safety, supervision or management of such activities and provides no liability insurance for participants. The organizers of these trips need not be approved SMS Leaders or even members of the SMS or Sierra Club. There are no official leaders, just friends skiing together without legal responsibilities.

These trips are listed here because they are likely of interest to SMS members who want to go on trips on a short notice or when two rated SC leaders are not available. The latter is a current problem since most long-term SMS members are unwilling to become leaders.

Private trip announcements should be submitted by e-mail to [one](#) or the [other](#) SMS Webmaster.

**Private trips are not sponsored or administered by the Sierra Club. There is no insurance coverage for such trips. All participants are equally responsible for their own safety and that of the group. There is no official "Leader". It is an outing among a group of friends. Everyone is expected to know and follow the basic safety standards that are practiced on SMS trips. Be again responsible for your own actions and you'll enjoy the "freedom of the hills".**
